

# Zero Emissions Vehicle (ZEV) Subsidy – Eligibility and example invoices

Individual Victorians are eligible for **one \$3,000 subsidy** and businesses can receive a maximum of **two \$3,000 subsidies**. The eligible ZEV model must be under the threshold of \$68,740.

The purchase price for the purposes of determining eligibility of the ZEV model will be calculated as the 'dutiable value' of the sale. The dutiable value includes:

- » all manufacturer and dealership accessory add-ons
- » dealer delivery fees
- » GST.

The purchase price for eligibility purposes does not include:

- » the subsidy amount
- » stamp duty, registration and compulsory third party-insurance costs.

Any ZEV purchase where the dutiable value is above \$68,740 will not be eligible to receive the subsidy.

The example invoices below show where the purchase price of the car is assessed against the \$68,740 threshold to determine eligibility for the subsidy.

The tax invoice sets out the total price of an eligible model, being (but not limited to) the following in:

- » the purchase price
- » the subsidy amount
- » stamp duty, registration and compulsory third party-insurance costs
- » the remaining amount (if any) to be paid by the customer.
